SUBJECT SARS-CoV-2 Vaccine Administration for Beneficiaries who are Homebound	BY  Sally A. Kozak, Deputy Secretary Office of Medical Assistance Programs	

IMPORTANT REMINDER: All providers must revalidate the Medical Assistance (MA) enrollment of each service location every 5 years. Providers should log into PROMISe to check the revalidation dates of each service location and submit revalidation applications at least 60 days prior to the revalidation dates. Enrollment (revalidation) applications may be found at: <https://www.dhs.pa.gov/providers/Providers/Pages/PROMISe-Enrollment.aspx>.

PURPOSE:

The purpose of this bulletin is to inform providers that the Medical Assistance (MA) Program will make an enhanced payment for the administration of novel coronavirus (SARS-CoV-2) vaccines to MA beneficiaries who are homebound. Additionally, this bulletin informs providers that Current Procedural Terminology (CPT) code M0201 was added to the MA Program Fee Schedule for the administration of the SARS-CoV-2 vaccines to beneficiaries who are homebound.

SCOPE:

This bulletin applies to physicians, certified registered nurse practitioners, certified nurse midwives, hospital-based medical clinics, home health agencies, independent medical surgical clinics, renal dialysis centers, ambulance providers, and licensed pharmacies enrolled in the MA Program who administer SARS-CoV-2 vaccines in the Fee-for-Service (FFS) and managed care delivery systems. Providers rendering services to MA beneficiaries in the managed care delivery system should contact the appropriate MCO with any billing questions.

BACKGROUND/DISCUSSION:

The MA Program currently pays for the administration of the SARS-CoV-2 vaccines at traditional provider sites by MA enrolled providers qualified to administer the vaccines to MA beneficiaries. However, MA beneficiaries who live alone who are homebound or whose health

or functional ability would prevent them from being able to travel to a traditional vaccination site have difficulty accessing the SARS-CoV-2 vaccines.

The provision of SARS-CoV-2 vaccines to MA beneficiaries who are homebound presents unique challenges to provide the appropriate vaccine storage temperatures, handling, and administration to ensure safe and effective vaccination. MA beneficiaries who are homebound include but are not limited to those individuals that need help from another person or from medical equipment such as crutches, a walker, or a wheelchair to leave their home, those individuals whose medical provider believes that their health or illness could get worse if they leave their home, and it is difficult for them to leave their home and they typically cannot do so.

In an effort to ensure that MA beneficiaries who are homebound have access to the SARS-CoV-2 vaccine, the Department of Human Services (Department) will pay providers an enhanced fee to administer SARS-CoV-2 vaccines to MA beneficiaries who are homebound. In the FFS delivery system, the enhanced fee is \$75.00. This rate was developed to account for the additional costs associated with traveling and administering SARS-CoV-2 vaccines to MA beneficiaries who are homebound. The Department added the pricing modifier AT and place of service (POS) 12 (Home) to the SARS-CoV-2 administration codes below to indicate the vaccine was administered to a beneficiary who is homebound. Providers in both the FFS and managed care delivery systems are to use the AT modifier and POS 12 with the applicable procedure codes below in order to receive the enhanced payment when billing for SARS-CoV-2 vaccines administered from April 1, 2021, through June 7, 2021, to beneficiaries who are homebound.

On June 8, 2021, the Centers for Medicare & Medicaid Services (CMS) announced the Medicare program will provide an additional payment of \$35.00 for SARS-CoV-2 vaccinations administered to individuals in their homes. This payment will be made in addition to the current \$40.00 SARS-CoV-2 administration fee when the vaccine is administered to an individual in their home. To facilitate this additional payment, CMS established CPT code M0201 to utilize when SARS-CoV-2 vaccines are administered to individuals in their homes.

In response, the Department added CPT code M0201 to the MA Program Fee Schedule, effective for dates of service on and after June 8, 2021. Procedure code M0201 is to be billed with the applicable SARS-CoV-2 administration code by providers in both the FFS and managed care delivery systems when billing for SARS-CoV-2 vaccines administered on or after June 8, 2021, to beneficiaries who are homebound. The MA Program Fee Schedule rate for procedure code M0201 is \$35.00.

The MA Program will not make an enhanced payment to providers when SARS-CoV-2 vaccines are administered to individuals who are in the home that are not homebound.

PROCEDURE:

Effective April 1, 2021, the MA Program will make an enhanced payment to providers for the administration of SARS-CoV-2 vaccines to MA beneficiaries who are homebound. MA enrolled providers in both the FFS and managed care delivery systems are to bill for the administration of the SARS-CoV-2 vaccines to MA beneficiaries who are homebound using the

applicable CPT codes identified below, with the exception of licensed pharmacies in the managed care delivery system. MA enrolled licensed pharmacies in the managed care delivery system are to contact the appropriate MCO for any billing questions related to the administration of SARS-CoV-2 vaccines to MA beneficiaries who are homebound.

Vaccine Manufacturer	Code	Code Description
Pfizer, Inc.	0001A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; first dose
	0002A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 30 mcg/0.3mL dosage, diluent reconstituted; second dose
Moderna, Inc.	0011A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; first dose
	0012A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (Coronavirus disease [COVID-19]) vaccine, mRNA-LNP, spike protein, preservative free, 100 mcg/0.5mL dosage; second dose
Janssen Biotech, Inc.	0031A	Immunization administration by intramuscular injection of severe acute respiratory syndrome coronavirus 2 (SARS-CoV-2) (coronavirus disease [COVID-19]) vaccine, DNA, spike protein, adenovirus type 26 (Ad26) vector, preservative free, 5x10 ¹⁰ viral particles/0.5mL dosage, single dose
N/A	M0201	COVID-19 vaccine administration inside a patient's home; reported only once per individual home, per date of service, when only COVID-19 vaccine administration is performed at the patient's home

Providers are to use the applicable CPT codes above with the AT modifier and POS 12 when billing for SARS-CoV-2 vaccines administered from April 1, 2021, through June 7, 2021, to beneficiaries who are homebound. This applies to providers in both the FFS and managed care delivery systems, with the exception of licensed pharmacies in the managed care delivery system.

For dates of service on and after June 8, 2021, providers in the FFS and managed care delivery systems, with the exception of licensed pharmacies in the managed care delivery system, are to use procedure code M0201 with the applicable SARS-CoV-2 administration code when billing for SARS-CoV-2 vaccines administered on or after June 8, 2021, to MA beneficiaries who are homebound.

Attachment A, "Updates to the Medical Assistance Program Fee Schedule: Procedure Codes for the Administration of SARS-CoV-2 Vaccines to Beneficiaries who are Homebound, Effective April 1, 2021 – June 7, 2021", identifies the procedure code, national code description, provider type, provider specialty, place of service, pricing and/or informational modifiers if applicable, and MA fee for the procedure codes for providers submitting MA FFS claims for dates of service April 1, 2021 through and including June 7, 2021.

Attachment B, "Updates to the Medical Assistance Program Fee Schedule: Procedure Codes for the Administration of SARS-CoV-2 Vaccines to Beneficiaries who are Homebound, Effective June 8, 2021", identifies the procedure code, national code description, provider type, provider specialty, place of service, pricing and/or informational modifiers if applicable, and MA fee for the procedure codes for providers submitting MA FFS claims for dates of service on and after June 8, 2021.

Home health agencies may bill for the administration of SARS-CoV-2 vaccines to beneficiaries who are homebound when the SARS-CoV-2 vaccine is administered independent of other home health agency services.

The MA Program does not make direct payments to licensed pharmacists. Pharmacies in the FFS delivery system may submit an 837 Professional (837P) claim to the MA Program for the administration of the vaccines by a pharmacist using the applicable CPT codes above, the AT modifier, and POS 12. The billing and rendering provider for the administration fee claim should be the MA-enrolled pharmacy's National Provider Identifier (NPI). An MA-enrolled prescriber's NPI should be submitted in the referring provider field.

Providers are to bill the applicable SARS-CoV-2 vaccine administration codes for those vaccines administered to individuals in the home who are not homebound. Providers billing for the administration of SARS-CoV-2 vaccines to individuals in the home who are not homebound are not to use the AT modifier or procedure code M0201.

Providers who have billed for SARS-CoV-2 vaccines administered between April 1, 2021, and the issuance of this MA Bulletin to beneficiaries who are homebound will need to resubmit their claims as described in this section to receive the enhanced payment.

Providers may access the online version of the MA Program Fee Schedule on the Department's website at:

<https://www.dhs.pa.gov/providers/Providers/Pages/Health%20Care%20for%20Providers/MAFee-Schedule.aspx>.

MA providers may also bill the MA Program for the vaccine for MA eligible beneficiaries by indicating, on the claim submission, the appropriate National Drug Code and the units dispensed for the vaccine. Providers may access the online version of the MA Drug Fee Schedule on the Department's website at:

<https://www.dhs.pa.gov/providers/PharmacyServices/Pages/default.aspx>.

Providers may not bill the MA Program for a vaccine they receive at no cost, including SARS-CoV-2 vaccines or therapies purchased by the federal government.
