

LET US KNOW PROGRAM

Keystone First

Keystone First is eager to partner with the provider community in the management of our members who may require a helping hand.

We are here to help you engage members in their health care by offering the Let Us Know program. We have many support teams and tools available to assist in the outreach and education of our members, as well as clinical resources for providers in their care management.

LET US KNOW PROGRAM

How can you let us know about members who need intervention?

Contact our Rapid Response and Outreach Team — they are here to support you!

- Call **1-800-573-4100** from 8 a.m. until 6:30 p.m.
- The Rapid Response and Outreach Team (RROT) addresses the urgent needs of our members and supports Keystone First providers and their staff. The team includes a Care Manager and Care Connector who are trained to work with members in navigating and overcoming barriers to achieving their health care goals.

Use the Member Intervention Request form

- Access the request form by visiting www.keystonefirstpa.com/provider > Resources > Let Us Know.
- Fax the form to request RROT outreach to the member.
- Fax to **1-800-647-5627**.

Refer a patient to the Complex Care Management program

- Care Management is a voluntary program focused on prevention, education, lifestyle choices, and adherence to treatment plans. It is designed to support a person-centered plan of care for people living with chronic diseases such as asthma, diabetes, and coronary artery disease and for those with unmet social needs.
- Members receive support matched to their need and preference: educational materials, care coordination services, and, if identified as high-risk, assignment to a Care Manager for one-on-one education and follow-up. For more information, or to refer a patient to the Care Management program, call **1-800-573-4100**.
